

Professor Chidambaram Soundrapandian, is a Doctorate in Pharmacy from Jadavpur University, India.

He is an academician since 1997, and has worked in different parts of the country before joining Himalayan Pharmacy Institute. He has published about 20 research/review papers in leading international and national publications.

Dr. Soundrapandian is also known worldwide for his most critically acclaimed free tool for pharmaceutical calculations, which enjoyed the top search result in Google for about a decade from 2001.

His present research interest is focused on local drug delivery systems with special attention towards orthopedic and dental implants.

He acts as a scientific reviewer for various journals and serves as an Editor for the Journal of Young Pharmacists, as well. In addition he engages as a guest speaker on pharmaceutical and motivational events in other colleges, during his free time.
